

**INDUVAC**

# Pressure relief valve DB series

The Induvac Relief Valve is constructed of aluminum or plastic and is designed to protect side channel blowers from overheating in a blocked-off mode during vacuum or pressure operation. Each valve can be set by the customer to the desired vacuum or pressure level. The relief valves are available in 1 1/4" up to 3" connection.

Induvac Ref.	a mm	b mm	c mm	d/e connection	f mm	g mm	Pressure range
DB 14A	240	140	70	G.1"1/4	50	0,5	0-300 mbar
DB 14B	230	170	80	G.1"1/2	30	0,6	300-600 mbar

Induvac Ref.	H mm	h mm	ØA mm	M connection	f mm	g mm	Pressure range
DB 14	240	140	70	G.1"1/4	50	0,5	0-700 mbar
DB 15	230	170	80	G.1"1/2	30	0,6	300-600 mbar
DB 2	240	140	70	G.1"1/4	50	0,5	0-700 mbar
DB 3	230	170	80	G.1"1/2	30	0,6	300-600 mbar
